

AGB Pharma (UK) Corporate Responsibility Statement

Our Commitment

At AGB Pharma (UK) we believe our corporate responsibility extends not only to our patients, customers and employees, but also to our local communities, the environment, and other stakeholders. This extended responsibility is something that we live and uphold on a daily basis in the UK and across the EU.

We commit to operate with effective governance and high standards of ethical behaviour in all aspects of the delivery of our pharmaceutical business in the UK.

We take our commitment to economic, social and environmental sustainability seriously, and extend this expectation to our partners and suppliers, setting clear goals and holding ourselves accountable.

To our patients and customers

We commit to deliver, high-quality medicines that address the unmet medical needs of patients and enhance the life of their carers. We actively seek to improve access to care, and advocate for policies that promote health equality and patient access to the medicines they need.

To our employees

We embrace a diverse workforce and inclusive culture. We are convinced that long-term sustainable development can only be achieved through close cooperation and individual commitment. We commit to ensuring our colleagues have opportunities for development and advancement. We commit to hiring and developing a workforce that reflects the changing diversity of our communities and our patient populations. We also endeavour to promote an open and honest platform for our employees to report any malpractice or violations they feel risk the ethical management of the business without fear of recrimination.

To our suppliers

We believe in the positive economic impact of engaging diverse suppliers. We are committed to working with suppliers that represent the diversity in the communities where they live and work. We work with all its suppliers on a continuous improvement basis to ensure that slavery and human trafficking is not taking place in any of their supply chains or any part of their business in compliance with the Modern Slavery Act 2015.

Environmental stewardship & protection of resources

We strive to reduce our environmental impact and at all times minimize potential health and safety risks. We undertake appropriate measures to reduce our environmental impact and to ensure that our production facilities meet the requirements of modern environmental management standards. Together with our suppliers we strive to reduce emissions in the areas of transport and logistics to minimize the environmental impact of our operations and products.
